

CONDITIONS OF SALE - LIMITED WARRANTY AND LIMITATIONS OF LIABILITY AND REMEDIES

Read the information contained herein before buying or using this product. If the terms are not acceptable, immediately return the product unopened.

The directions for use of this product are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result due to such factors as timing and method of application, weather and crop conditions, presence of other materials, or other influencing factors, all of which are beyond the control of Corbet Scientific, LLC (the "Company") and seller. In addition, failure to follow label directions may cause injury to crops, animals, man or the environment. The Company warrants that this product conforms to the chemical description on the label and is reasonable fit for the purpose referred to in the directions for use subject to the factors noted above which are beyond the control of the Company. The Company makes no other warranties or representations of any kind, express or implied, concerning the product, including no implied warranty of merchantability or fitness for any particular purpose, and no such warranty shall be implied by law. The exclusive remedy against the Company for any cause of action relating to the handling or use of this product shall be limited to, at Company's election, one of the following: Refund of the purchase price paid by buyer or user for product bought or replacement of the product used. The Buyer and user acknowledge and assume all risks and liability resulting from the handling, storage, and use of this material not in accordance with directions given herewith. To the extent allowed by law, the Company shall not be liable and any and all claims against the Company are waived for special, indirect, incidental, or consequential damages or expense of any nature, including, but not limited to, loss of profits or income. The foregoing is a condition of sale by Company and Seller and is accepted as such by the Buyer.

KEEP OUT OF REACH OF CHILDREN

Not a Dangerous Substance according to GHS classification or other known OSHA hazards as noted in OSHA Communication Standard (HCS) 29 CFR 1910.1200. This substance does not meet the criteria for GHS classification.

IMPORTANT: Always refer to the Label on the product before use.

PRECAUTIONARY STATEMENTS

Avoid breathing spray mist. Use only outdoors or in a well-ventilated area. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

GENERAL INFORMATION

HYDROVANT-*fA* is a polymer-based adjuvant with enhanced spreader/sticker properties providing improved performance of insecticides and fungicides. Chemical properties of this new long chained polymer reduce the effects of rainfall and volatility on spray deposits. HYDROVANT-*fA* has a high degree of compatibility with most pesticides, does not clog nozzles and mixes easily in spray solutions. When used according to the Directions for Use, HYDROVANT-*fA* is compatible with most pesticides.

DIRECTIONS FOR USE

HYDROVANT-*fA* is intended for use with products registered for agricultural, horticultural, turf, ornamental, industrial, and non-crop uses. Read and follow all pesticide label directions. Do not use where the pesticide label prohibits an adjuvant. The applicator must have previous experience with the adjuvant/pesticide spray mixture or should apply a small test area before making large scale applications.

MIXING DIRECTIONS

Prior to any application, all spray mixing and application equipment must be clean. Carefully observe all cleaning directions on the pesticide label. Read and follow the precautions, restrictions and recommendations on all product labels used with HYDROVANT-*fA*. Use according to the most restrictive label directions for each product in the tank mix.

1. Fill tank 1/4 to 1/2 of the total amount of water prior to adding HYDROVANT-*fA*.
2. Add the required amount of HYDROVANT-*fA* while maintaining vigorous agitation.
3. Agitate until HYDROVANT-*fA* is thoroughly in solution. Note: The appearance of small white particles may indicate the presence of hard water conditions, which may necessitate the use of a water softener.
4. Add desired chemicals per their directions, while continuing vigorous agitation.
5. Finish filling water to desired level. Apply within 2 hours of mixing for best results. If sprayed solution has been allowed to stand, thoroughly agitate again before application.

USE RATES

Ground/Air: Use 13fl. oz. of HYDROVANT-*fA* per 100 gallons of finished spray (0.1% v/v).

Backpack/Handheld Sprayers: Use 1/8 fl. oz. of HYDROVANT-*fA* per gallon of finished spray mix (0.1% v/v).

NOTE: Apply enough HYDROVANT-*fA* to allow for uniform wetting and deposition of the spray onto target area without undue runoff. A compatibility test is always recommended if the desired combination mix has not been previously used. In most cases, HYDROVANT-*fA* allows the lowest recommended label rate to be applied.

NOT FOR AQUATIC USE

STORAGE

Store product at temperatures above 36°F (>2°C) and below 95°F (<35°C). Keep product stored in cool, dry areas to avoid temperature extremes. Store in original container only. Keep container tightly sealed. Do not contaminate water, food or feed by storage or disposal. Do not allow water to be introduced into the contents of this container.

PRODUCT DISPOSAL

Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Do not contaminate water sources by runoff when cleaning equipment, or disposing of equipment washwaters, or spray waste.

CONTAINER DISPOSAL

Triple rinse (or equivalent). Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state or local ACRC recycler, visit the ACRC web page at www.acrcycle.org. If unable to recycle, puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burning, stay out of smoke.
